

# Public Coffee Cuppings

Join us and explore new coffees, unique micro-lots, and bestselling blends.  
Fridays, 10am at the Alexandria Roastery Cupping Lab.

---

Each Friday, we open the doors to our cupping lab and take anyone who is interested on a journey—from the sprouting of the coffee seed at origin, to the final roasted product.

The supply chain for coffee is long and we feel it is our charge to communicate to you, not only where your coffee comes from, but the journey it takes and those involved along the way.

Come and learn more about coffee tasting, biology, chemistry, economy and what we are doing to ensure good stewardship and fair practices in the coffee supply chain.
